Dear Parents of S3 Students,

S3 Examinations for Biology, Chemistry and Physics

In order that S3 students do not need to study too many subjects at the same time, the S3 science subjects, Biology, Chemistry, Physics and ICT are conducted alternatively in the 1st and 2nd terms of the academic year. Each S3 class will have its own order of subjects different from each other. After each term, there will be an examination for Biology, Chemistry and Physics which will in fact be the final exam for that particular subject.

The 1st term examinations will be held on **22nd January, 2010 (Friday)**. Details for the 2nd term examinations will be provided closer to the time.
